COURSE OBJECTIVES

The Pathology workshop is designed for Medicolegal Death Investigators, Law Enforcement, and Interning Medical Examiners. Presentations will include Blunt and Sharp Force Trauma; Gunshot Wounds; Forensic Toxicology in Death Investigation; Motor Vehicle Deaths; Child Abuse and Death in Children; Postmortem Changes and the Determination of Time of Death; Fire and Electrical Related Death; Sex and Asphyxial Deaths; Cardiac and Non Cardiac Unexplained deaths; Forensic Anthropology, Odontology, and Entomology; and Investigation of the Death Scene. Case Presentations for each topic will be shown.

The Southern Institute of Forensic Science was established in 1988 and is registered with the Secretary of State in Mississippi. The Institute provides training through seminars, workshops, and academically accredited undergraduate and postgraduate courses to students and professionals interested in forensic science.

Intensive courses are also offered for non-traditional students. Courses are offered in Mississippi, Louisiana, Missouri, Alabama, Tennessee and Texas.
